The Photonics for Quantum Workshop (<https://www.rit.edu/fpi/photonics-quantum-pfq-workshop>) is coming to RIT later on this week, and we give you a preview of what will be happening at the conference.

MCC is touting success, a new study by the college says students who get degrees or certificates in certain kinds of technical careers are doing quite well salary-wise five years after graduation.

Plus, RG&E and NYSEG are working on pilot projects involving energy storage.
